PROJECTS

Cyber Clash – Real-Time Multiplayer Quiz Game(<https://github.com/Gur512/Cyber-clash-game>) May, 2025

- Engineered a full-stack real-time quiz game using Socket.IO and Express for seamless multiplayer gameplay.
- Architected backend logic to fetch, score, and sync questions across all clients with minimal latency.
- Designed admin, player, and viewer UIs with live updates, dynamic leaderboard, and MCQ/TF support.

Creerlift – LinkedIn-style Career Platform(<https://github.com/Gur512/career-lift>) February 2025

- Developed a career platform with profile creation, job feed, and responsive UI.
- Implemented search, filtering, and reusable components for smooth navigation.
- Applied accessible, modular design principles for scalable front-end structure.

Comfort Craft – Furniture Marketplace Website(<https://github.com/Gur512/Comfort-Craft>) January 2025

- Created an e-commerce website featuring interactive listings, a contact form, and Google Maps integration.
- Integrated responsive UI components using Bootstrap to ensure mobile-first, accessible design.
- Streamlined page layouts for optimal user flow and ease of navigation across devices.

EDUCATION

Diploma in Software Development

Manitoba Institute of Trades and Technology (MITT)

Diploma in Office Automation - India

ACHIEVEMENTS

Silver Medalist in Web Technologies

Manitoba Skills Competition 2025

Best Student National Award - India

COMMUNITY INVOLVEMENT

Volunteer – Red River Exhibition May, 2025

- Supported interactive tech booths and promoted STEM learning through live demos and guest engagement.

Volunteer – Sikh Heritage Month April, 2025

- Organized booths, managed tech setups, and shared cultural insights with the local community.

Volunteer – Young Women’s Conference March, 2025

- Mentored youth and led coding demos and games for middle and high school girls new to programming.
