PROJECTS

Cyber Clash – Real-Time Multiplayer Quiz Game

May, 2025

- Developed full-stack real-time quiz game using Node.js, Express, Socket.IO, and SQLite.
- Created admin, player, and viewer interfaces with real-time sync and score tracking.
- Implemented MCQ and true/false questions, dynamic leaderboard, and socket-based communication.

Creerlift – LinkedIn-style Career Platform

February 2025

- Built job feed and profile system using HTML, CSS, JavaScript, and responsive design.
- Focused on clean layout, user accessibility, and component reusability.
- Implemented dynamic filtering and search features to improve user navigation.

Comfort Craft – Furniture Marketplace Website

January 2025

- Built a responsive furniture marketplace using HTML5, CSS3, and JavaScript.
- Implemented login modal, contact form, product listings, and Google Maps.
- Focused on clean UI/UX, accessibility, and mobile-first design with Bootstrap.

COMMUNITY INVOLVEMENT

Volunteer – Red River Exhibition

May, 2025

- Assisted tech booth operations, guest interactions, and youth STEM engagement

Volunteer – Sikh Heritage Month

April, 2025

- Helped organize and manage cultural awareness booths and tech logistics.

Volunteer – Young Women's Conference

March, 2025

- Helped mentor attendees and demo coding basics to middle and high school girls.
